Subject: gcms data

Jim, thanks for the data. I hope it keeps the ADA happy. Its bad enough we have to get data for cases 11 years old, but today we received requests for data on cases that were heard 2 years ago, and they just got overturned. They are going to be retried. We will be going to court everyday of the week and then they will want us to work in the lab on weekends. Thanks again, and have a good weekend. Chuck S
